Lida Vanessa Charsouli

Dipl. Eng. Arch, MArch AA, TEE, ARB, RIBA

Lida is a registered Architect in Greece and the UK and a RIBA member. Following her graduation from the Aristotle University of Thessaloniki in Greece and the ETSAB in Barcelona, she continued her studies at the Architectural Association DRL earning a Masters in Architecture and Urbanism.

She gained extensive experience working for the offices of Zaha Hadid Architects, Future Systems and Grimshaw London and New York. Her projects include the Phaeno Science Centre in Wolfsburg Germany and the original Marni stores in New York, Paris and Kuwait. She worked on fit-outs for the Selfridges in Oxford Street and on the Selfridges building in Birmingham and large transport projects. While working for Grimshaw she led a team of architects to successfully submit one of the largest planning applications in the UK. She worked with Superfusionlab on various projects since its formation, and joined full-time as a partner in early 2008.

She has been a visiting lecturer at the Architectural Association and the University of East London for the last 8 years and taught as a part-time Lecturer Post-graduate Unit 11 at the London Metropolitan University.
